Automated Export System Seminar and Workshop

Provide accurate data and avoid costly penalties and seizures

How well do you know the Foreign Trade Regulations (FTR) and the Automated Export System (AES)? Are you up to date on recent clarifications? Do you understand how to classify your commodities?

As of April 5, 2014, new export requirements were implemented that amend the regulations published in 2008. This export compliance seminar is a one day program, followed by a half day training, bringing together experts from the Department of Commerce to provide training on export filing requirements. All those involved in the export process such as U.S. Principal Parties in Interest including Manufacturers and Suppliers, Export Compliance Managers, Freight Forwarders, Exporting Carriers, Consolidators, and U.S. Customs Brokers should plan to attend this valuable event.

***Updated as of September 25, 2014:** Be sure to read the [highlights of the new FTR export requirements](#) implemented on April 5, 2014!

Seminar Highlights:

- New regulations/filing requirements of the FTR
- How to avoid common penalties and seizure of cargo
- How to classify your product according to the Schedule B classification requirements
- BIS Export Controls and requirements
- Export Enforcement
- Identifying red flags
- Overview of Export Control Classification Numbers (ECCN)
- Best practices for maintaining compliance

Workshop Highlights:

- Hands on AESPCLink training
- Learn how to successfully file your Electronic Export Information (EEI)
- Practice reporting export information
- Create shipment templates
- AES Certification
